
```
1 public class Disk {  
2     static CharString document;  
3  
4     public static CharString getDocument() {  
5         if (document == null) {  
6             document = new CharString();  
7         }  
8  
9         return document;  
10    }  
11 }
```
